Identifying possible support actions

Caring attitudes start with practical actions

Activity: Identify the Support Actions in the 3 Case Studies

Having read the three case studies in Guide 1, identify the support actions that the principals managed to organise in their schools. Then answer the questions below.

- Write down your responses in the table/space provided below.
- Which of these support strategies could you implement in your school?
- Are there any organisations and individuals in your community that could support your school?

Keep these notes as they will help you to start reflecting on your own school context.

1. Fill in the table below

Case	List the support actions /interventions	Who provided the support? List government & other agencies/organisations and individuals
Case 1		

Case	List the support actions /interventions	Who provided the support? List government & other agencies/organisations and individuals
Case 2		
Case	**List the support actions /interventions**	**Who provided the support? List government & other agencies/organisations and individuals**
Case 3		

2. Which of the <u>above</u> support actions do you think you could organise in your school?
