

ILLUSTRATIVE PACK:

Being and Becoming a Professional

As a growing professional, reflective practice helps you learn about what happens in your ECCE daily programme. It helps you judge what you do and what approaches you use. You use this knowledge to improve your interaction with children, families, peers, managers and support services.

This resource takes you on the journey of Ms ECCE, through self-, guided- and critical-reflection to becoming a professional ECCE practitioner.

This is a digital non-printable resource. You can move through the different components of this pack by clicking on this link:
